DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3 and 5-11, drawn to a method for generating an established cell line which enables the replication of complete and infectious HCV comprising PBMC's which produce HCV and EBV.

Group II, claim(s) 13, drawn to an EBV-established B-cell line capable of replicating complete and infectious HCV.

Group III, claim(s) 14-17, drawn to a cell-based *in vitro* replication system for HCV.

Group IV, claim(s) 18-19, drawn to an assay for screening a test agent and selecting an agent which possessed anti-viral activity.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is directed to an invention which lacks novelty. Cheng et al (2001) disclose a method in which PBMC are cultured *in vitro*. These cells are infected by HCV transformed by EBV and maintains functional HCV for long periods of time (see whole document and Abstract). Thus, no special feature exists for Groups I-IV as defined by PCT Rule 13.2, because it does not define a contribution over the prior art. Note that PCT Rule 13 does not

provide for multiple products or methods within a single application. Because the technical special feature of the Groups is not a special technical feature, unity of invention is lacking.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
